Sire: Icare
AI Code: SA0848

Dam: Gertrude

MGS: EPS Pld Newsbreak

Ear Tag: UK292039700256

Breeder/Farmer

GENTONS SALERS

We purchased embryos from the exceptional Donor female “Gertrude” in France, Romeo is the result of these embryos.

This outstanding cow displayed everything we were looking for in a Saler cow, full of breed character and style. She displays power, size, and real natural fleshing along with outstanding maternal traits.

His sire Icare is a very renowned sire in France for producing muscle and length and consistently transmitting these traits to his progeny. Romeo was a standout from birth with a great temperament and exceptional performance. We are very excited about this young bull and cannot wait to see what he can do.

Ben Bellew (Stockman) and Bertie Falcon (Owner) - Gentons Salers
