**Breeder/Farmer**

An exciting new addition to our Signature Beef Line up, Rosebank Victorious. A bull with power and strength, sure to appeal to pedigree and commercial producers alike for his great fleshing ability and phenotype. Victorious has great plates and end with a thickness all the way through, coupled with ample lovely Blonde characteristics and a sweet head. He is a well moving bull with great feet and legs. We expect Victorious to transmit growth, muscle and easy fleshing ability to his progeny. Originating from the respected Rosebank herd, Victorious shows great promise as a young bull and we look forward to seeing his calves hit the ground.
