Sire: Whitecliffe James

Dam: Solitude Nell

MGS: Goldies Eddy

Ear Tag: UK933001332267

AI Code: CH3923

Breeder/Farmer

This flashy Whitecliffe James son carries outstanding conformation and muscle definition throughout his body. Rodriguez carries one copy of the F94L myostatin gene and one copy of the Q204X myostatin gene, with a pedigree packed with proven genetics on both his maternal and terminal lines. This bull's exceptional loin is wide and full from his shoulder to his pins, making him an exciting prospect for breeding progeny with shape and style. We expect this bull to provide customers with calves that show great muscling and conformation whilst maintaining that Charolais character. This sire carries a Semen Royalty for pedigree registrations.
